#### SHORT BIO:

After graduating from Hacettepe University Faculty of Medicine in 1990, I started my specialization training in the General Surgery Department of the faculty. I completed my specialization in 1996 with my thesis supported by TÜBİTAK. After working as a specialist in the field of science for a year, I started working as chief assistant at the 6th Surgery Clinic of Ankara Numune Training and Research Hospital. After working at Acıbadem Kadıköy and Bodrum Hospitals, I have worked at Anadolu Medical Center since 2017.

I am currently the president of the Turkish Surgical Infection Society, of which I was a founding member, board member, and secretary for a long time (<http://cerrahienfeksiyon.org.tr/>).

I served as the congress secretary of the 21st European Congress on Surgical Infections, held in Antalya in 2008, to which I have actively contributed since the beginning of my residency. I served on the society's Council in various positions for 11 years. After working as a 'Councillor at large' for three years, as a 'Recorder' for three years, as an 'Secretary' for two years, and as an 'President-Elect' for one year, I was elected 'President' of the society in 2019. I served as president of the society for three years, between 2019 and 2022. In the 2022-2023, I served as 'Past President' (<http://sis-e.org/council-committees/>).

I continue to work as the 'Secretary' of the World Surgical Infection Society board of directors, of which I am a founding member (<https://www.worldsis.org/copy-of-board-of-directors>).
